

Common Core State Standards for Literacy in History/Social Studies

The College and Career Readiness (CCR) Anchor Standards define what students should understand and be able to do by the end of each grade span. Essentially, they describe the skills that high school graduates should have in order to be ready for the world of work and/or college. The CCR plus the more detailed grade-specific standards complement each other—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate.

The “Literacy in History/Social Studies” standards are divided into Reading, Writing, Listening and Speaking. For the sake of space, only the CCR Anchor standards, that apply to this simulation and not the grade-specific ones, are shown here. For the more detailed grade-specific standards which apply to this simulation, see the Common Core page on our website QQQ, or get the full English Language & Literacy in History/Social Studies standards document (PDF format) from the Common Core website: <http://www.corestandards.org/the-standards/download-the-standards>.
